

# Typography INSTRUCTION MANUAL

## GK typography plugin overview

We implemented this new feature extremely useful for the use of typography, specially created for the template. Like in all Joomla templates, characterization of the text style is added to enrich even more the respective content. However, we may say that some Users have not been motivated to use this potential, perhaps because this information was not easily available.

So, in order to promote and facilitate the use of the typography, we added a special plugin that will allow Users to set easily any typography style in text.

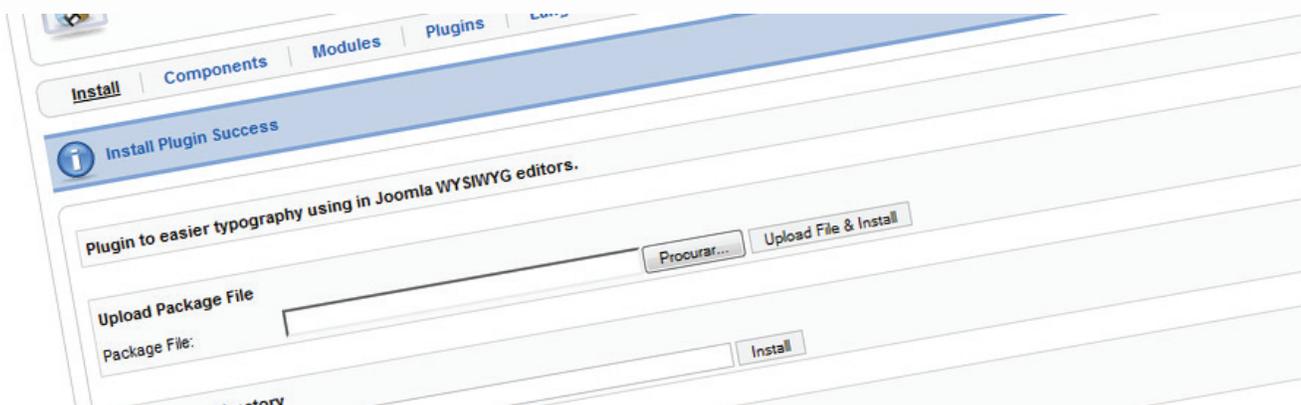

Keep in mind that result of typography plugin is based on CSS styles defined in template. So result will differ between different templates.

## GK typography plugin installation

Go to “[Extensions > Install/Uninstall](#)” and select the [plg.gk\\_typography.zip](#) file, available inside the plugins folder of every newly published template package. Upload file and install.

A message will appear saying “[Install Plugin Success](#)” and it will show you an small description of the plugin.

Next, you will need to enable it on the Plugin Manager of your Joomla.

So, navigate “[Extensions > Plugin Manager](#)” and find the [Button - GK Typography Plugin](#) and enable it.

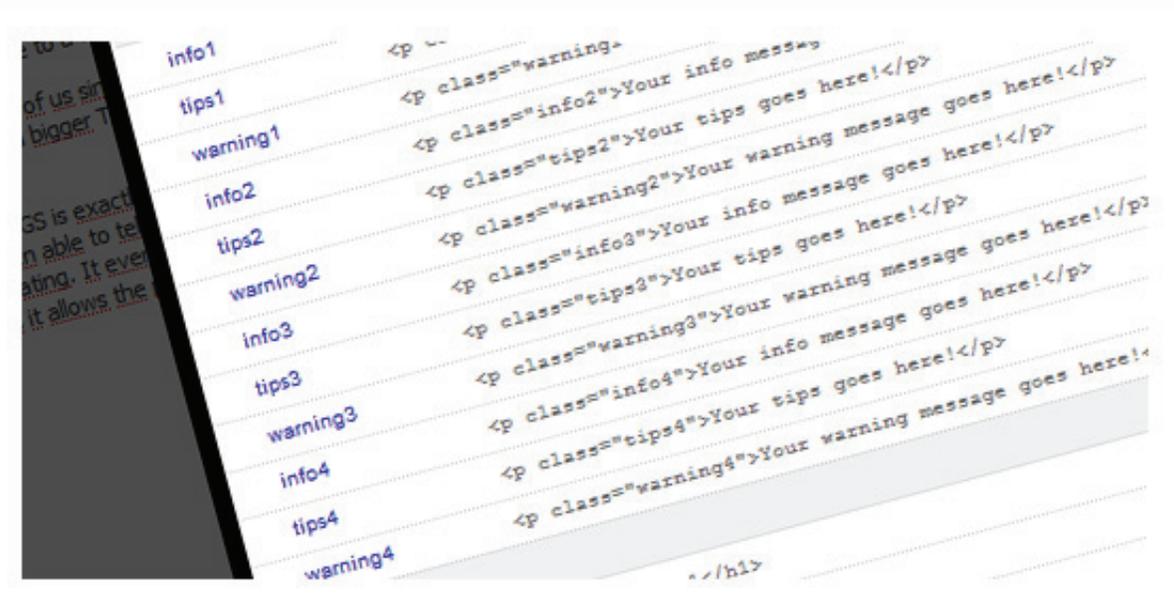

## GK typography plugin How to Use

It's very easy to work with, as you be able to see.

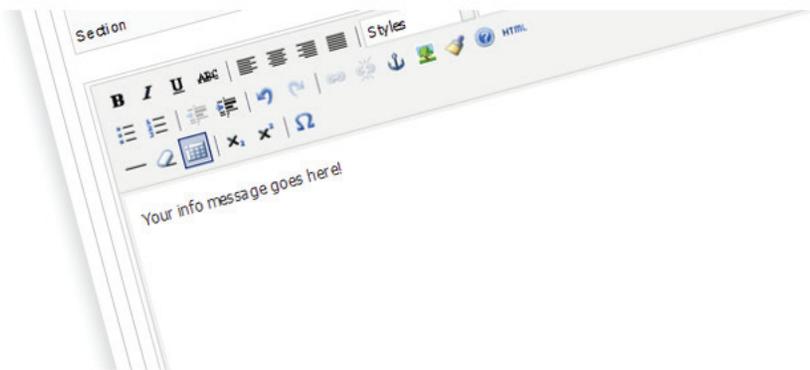

So, let's start by creating a new article. Go to "[Content > Articles Manager](#)" and press new button. Now you will see the normal WYSIWYG joomla editor and on the bar above you will find the GK Typography button.

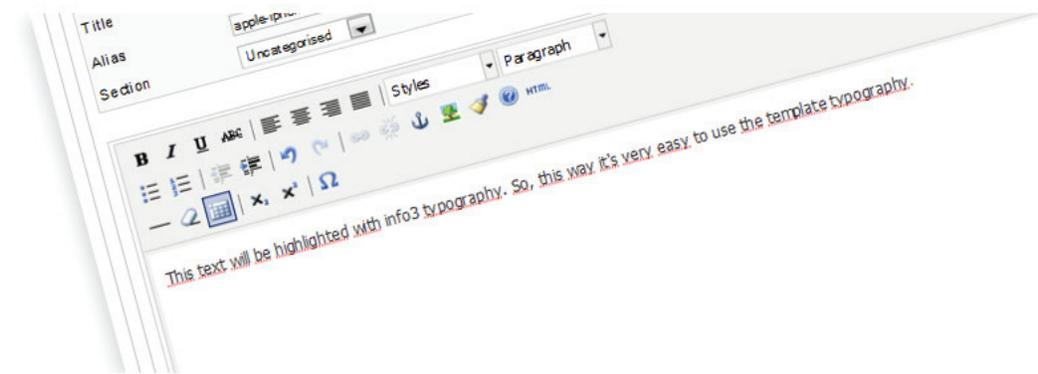

Click on it and a modalbox will popup with all the Typography added to this template. Scroll down top select the desired one, and press the respective text style on the left column.

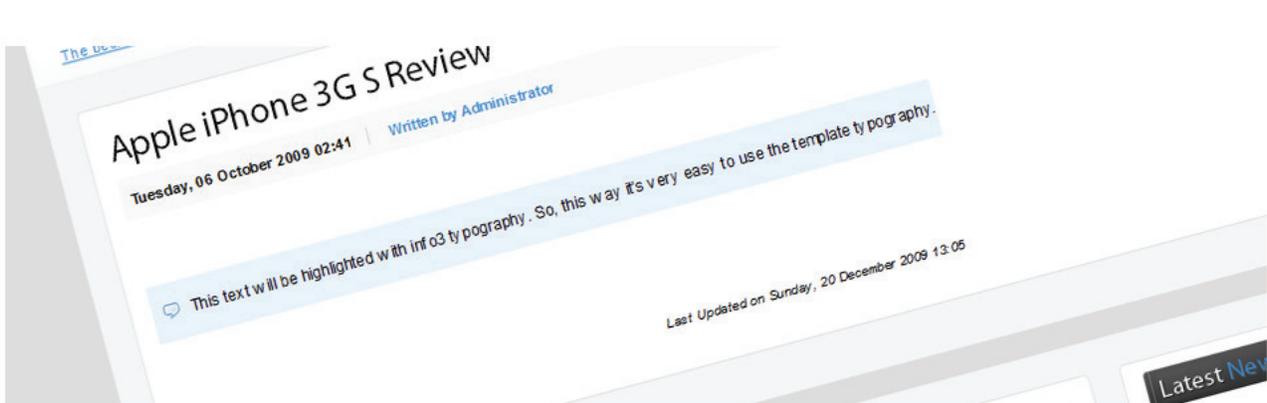

For example, i will select the “info3” typography style. So, i just press on it and immediatly text will be added on the text area.

Now, i just need to replace the existing text with my own and save.

So, let's see the result on frontpage.

Nice, right?

Easy and friendly interface, this will be very important to help you to create stunning articles styles.
